

Swiftqueue Online Booking Patient User Guide

What is Swiftqueue?

Swiftqueue is an innovative solution that is transforming patient experience.

Swiftqueue allows patients to see live appointment availability and make a booking at a convenient time and location of their choice. This will improve patient flow, minimise wait times and reduce overcrowding. Patients are also able to cancel and reschedule appointments online. There is no change to the number of blood tests that will be taken at each phlebotomy site.

Registering

1. First, register on the Swiftqueue website. Follow the link or scan the QR code at the bottom of your blood test form.
